Yewdiel Antonio Martinez Medina

Los Mochis, Sinaloa • 6601300157 • yewdiel211@gmail.com • https://portfolio-14t2.vercel.app/

Education

Colegio de bachilleres del Estado de Chihuahua Jiménez, Chih.
Information and Communication Technologies 2019-2022

Universidad Autónoma de Sinaloa Los Mochis
Software Engineering 2022-Present

Experience

Freelance Software Developer 2022-Present

- Analyzed, designed, developed, and maintained custom software solutions to automate business processes, including inventory control, sales, customer management, and report generation.
- Developed web and mobile applications using React, React Native, TypeScript, PHP, MySQL, Tailwind CSS, Bootstrap, and GSAP, building modern, responsive interfaces.
- Implemented, consumed, and maintained REST APIs built with C# and .NET, integrating business applications with backend services and data sources.
- Developed generative AI solutions with Python and LLM APIs, implementing RAG pipelines with LangChain, embeddings, and vector search to query document-based information.
- Administered, configured, and maintained Linux and Windows servers, handling application deployments, service configuration, and databases.
- Automated tasks using Bash and PowerShell scripts for environment setup, application deployment, and server administration.
- Participated in the full software development lifecycle, from requirements gathering and solution design to testing, deployment, and post-delivery support.

Dinámica Computacional Los Mochis
Software Developer 2025

- Developed and maintained web and mobile applications using React, React Native, TypeScript, and PHP.
- Designed and implemented REST APIs and integrations with backend services built in C# and .NET, applying architecture and maintainability best practices.
- Managed MySQL and PostgreSQL databases, designing schemas, optimizing SQL queries, and ensuring data integrity.
- Configured and managed Linux and Windows servers, handling application deployments and service maintenance.
- Collaborated with cross-functional teams to develop new features, fix issues, and improve application performance.
- Implemented deployments using Docker, Nginx, and IIS.
- Automated processes using Bash and PowerShell scripts to reduce configuration and deployment times.

Skills

Technical Skills:

- Programming Languages: C#/.NET and ASP.NET Core (Advanced), TypeScript (Advanced), JavaScript (Advanced), Python, PHP.
- Frontend: React, React Native, Tailwind CSS, Bootstrap, HTML5, CSS3.
- Backend: .NET, REST APIs, Node.js, NestJS, Express.js.
- Databases & Cloud: SQL Server, MySQL, SQLite, PostgreSQL, Firebase, Supabase.
- Generative AI: LLMs, RAG, LangChain, embeddings, vector search.
- DevOps & Infrastructure: Docker, Linux Server, Windows Server, Nginx, IIS.
- Tools: Git, GitHub, GitLab, Azure DevOps (CI/CD), Figma, Bash, PowerShell.

Languages:

Spanish: Native
English: Intermediate
